Your opportunity to find out more about upcoming works near you

Dear Sir/Madam,

You may already be aware of a drop-in session which is scheduled to take place on Tuesday, 17th December 2019, from between 5pm and 8pm, at Emmbrook Village Hall.

The public event has been organised by Balfour Beatty, the contractor delivering the North Wokingham Distributor Road West of Old Forest & Toutley Rd scheme on behalf of Wokingham Borough Council as part of its Major Highways Programme.

At this session, we will have the latest update on upcoming works and longer-term plans for the west of Old Forest Road section of the wider NWDR scheme. This will include preliminary detail relating to the flood defence bund proposed in the flood plain area (Emmbrook & Ashridge stream).

Please find attached a copy of the event flyer, just in case you've not seen this already. Whilst we acknowledge this is a busier time of year, we hope you can spare some time and come along. Do introduce yourself to colleagues from Balfour Beatty and they will do their best to answer any questions you may have.

Finally, if you haven't already signed up to receive our project updates and newsletters via e-mail then we would strongly advise you to do so. Please send us an email at NWDR@balfourbeatty.com or call the Balfour Beatty helpline on 0800 121 4444.

Kind regards,

Leon Scholtz
Project Manager, Wokingham Borough Council
