Dear neighbour,

Railway work near your home - Preparatory Works at Wokingham - Earley

We're getting in touch to let you know that we'll soon be carrying out work near your home to help keep the railway safe and reliable. As part of our preparation for the upcoming conductor rail delivery and renewal, we will be completing a series of preparatory tasks. This work will involve the use of mechanical equipment and small plant machinery.

When we talk about the railway track, we mean the whole infrastructure that the train runs on, including:

- **Rails** – these are the lengths of steel that are welded together
- **Sleepers** – these are supports for the rails
- **Switches and crossings** – these are moveable sections of track that guides trains from one track to another and allow them to cross paths
- **Sets of points** – these are mechanical system that move the switches and crossings

The work will take place on the following dates and times:

- **Each night between the times of 23:00- 07:00 from Monday 30 March 2026 to Thursday 02 April 2026**

We work around the clock to keep the railway running smoothly for passengers and freight. Our work is often noisy, late at night and on weekends. The nature of the tasks means we can't prevent all noise, but our teams will try to minimise this as much as possible. Sorry for the disturbance this may cause you.
